

ISTITUTO EUROPEO DI DESIGN

WE NURTURE VISIONARY STUDENTS

IED is committed to supporting the most motivated and visionary students by running periodic scholarship campaigns to foster their academic careers and offer the possibility of enrolling in courses with a reduction in tuition fees.

Stay updated about the ongoing initiatives and application details at IED's website.

TRANSFORMING IDEAS INTO PROTOTYPES

IED creates the best environments to transform ideas and make them real: different labs on any campus are available, offering cutting edge digital technologies along with traditional artisanal workshops.

HANDS-ON WORKSHOPS

Hands-on workshops where you can experiment with materials, shapes, patterns and merging with 3D printing, CNC Milling, laser cutting or sensors to create models and prototypes for any industry.

FROM A SKETCH TO A SHOOT

Spaces for exploring new creative languages and meaningful storytelling. Environments for pushing the boundaries between digital and physical worlds with VR, AR and AI application. You can develop your own traditional or cutting-edge images, motion, video and sound projects.

INTERNATIONAL NETWORK

COMMUNITY

IED'S GOAL IS TO SHAPE NEW DESIGN
QUESTIONS ANTICIPATING FUTURE
CHALLENGES AND CONTRIBUTING TO A MORE
EQUITABLE AND RESILIENT WORLD.

"Thanks to knowing how to make patterns, sew, and
work hard on my thesis at IED, I was already somewhat
prepared for this madness of the fashion world that
I got into."

Luis de Javier – Fashion Designer

"I believe that design is a tool for innovation, especially
in the realm of social innovation."

Ginevra Franchi – Product Designer

"Only through mistakes you truly learn when to put
your ego aside and serve the project."

Phaim Bhuiyan – Film Director, Screenwriter and Actor

More than 200.000 people are part of the growing Alumni Community, which IED supports and nurtures beyond graduation. It is more than just being part of a network – it's about staying connected to a community that shares your passion for design and creativity with unique events, activities, and exclusive services.

Istituto Europeo di Design is the largest network of European Arts and Design Schools located in three countries: Italy, Spain and Brazil. Founded in 1966 in Milano, the Institution provides a learning experience that combines critical thinking with a practice-based approach to design, addressing real-world challenges and needs.
